Dear authors,

We send you the N 2, vol. 18, 2017 with your article published, in attach.

We inform you that we are now looking for organizations who are interested in continuing the publication of this international scientific journal. Such organisation could be Educational or Science Associations, Universities, Foundations, Research Group or the like and could be based in any country.

The first issue of the JSE was published in January 2000 and we did a lot of different issues (to see www.accefyn.org.co/rec) with about 700 peer reviewed articles of authors from more than 70 countries. We organized too two big International congresses of Science Education (to celebrate 10 and 15 years of the JSE) in 2009 and 2014 and a number of special editions. We have articles for next issues and constantly receive new texts for reviewing from over the World. The JSE has the impact factor from Scopus too.

Possibly your know the University or research group who would be keen to continue this international project. In this case we can begin the process of transferring of the JSE to this Institution. We will also close the special Foundation (non profit) in Colombia, that is officially responsible now for JSE. If you wish to explore the idea further, please send your proposals and/or any questions to the following email addresses : joapd11@gmail.com, oen85@yahoo.com

Sincerely,

Yuri Orlik
