Dear Tony,

I was wondering that whether your co-author has a sure name. It does not look correct to have only one name?

Please let me know ASAP.

Dear Tony

I have attached your paper again. You need to check all the figure and table numbers. I think there is something not right. They are not numbered correctly or the tables referred in the text are not correct. Please correct them correctly and do not make any mistake at this state. Whatever the change you made should be marked in red color.

Do not use one sentence paragraph anywhere in your paper.

What is square multiple correlation?

You have to return the paper by today.

What is "forth worth". See this reference:

Engel, J.F., Roger, D.B. and Paul, W.M. (2005). Consumer behavior. International Edition, **Forth Worth**, New York: Dreyden Press.

Dear Tonyh

Can you please whether the reference you had given me earlier matches this style:

Clark, B.W. (1988). **This is the title of a paper appearing in a published proceeding**. In A. B. Cook (Ed.), Proceedings of the 100th Annual Meeting of the Society of Experimental Results (pp. 49-78). City: Publisher.

Yours one:

Chiou, J. (1998). The effects of attitude, subjective norm, and perceived behavioral control on consumers' purchase intentions: The moderating effects of product knowledge and attention to social comparison information. Paper presented at the Proceedings of the National Science Council, Republic of China.

I am just afraid there are many references you included without following the guidelines. Even the citations are not up to the style. What happens if an author does not follow the guidelines is that the paper will not be properly cited by others as SCOPUS ignores such references.

I would like to request you for the last time to look for any other non-compliance in the reference section and citations that may harm your credentials in the future should be rectified now.

Kind regards

Thank you. In table 4 what are those boxes like Organic knowledge ■ Attitude toward organic food.

T You do not refer to table 4 or 3 in the text. I also told you not include any one sentence paragraph. You have one right after DATA ANALYSIS heading.

You need to add your questionnaire as an appendix. Please send it to me as an attachment I will add it myself.

I look forward to hearing from you as soon as possible

Regards
